This week has a lot of games and the return of some older ones in the form of discounts. We also get two games that have been waiting to seep out onto 3DS and Wii U for quite some time. Let's see what they are:

### Releases

#### Wii U eShop

- **Adventures of Pip** – \$14.99The long awaited pixel-based sidescrolling adventure game is finally here on the eShop. Already a success on Steam, the game manages to chronicle an adventure (one of Pip) from 8-bits all the way up to 32-bits, drawing inspiration from games that we oft forget with today's level of graphics.
- **Cube Life: Island Survival** – \$6.99
- **Cube Blitz** – \$3.99
- **The Stonecutter** – \$1.20

#### Wii U Virtual Console

- **Pac-Attack** – \$7.99

#### 3DS eShop/Retail

- **Lord of Magna: Maiden Heaven** – \$39.99
- **Angry Video Game Nerd Adventures** – \$9.99

Another game that found success on other consoles before Nintendo ones, *Angry Video Game Nerd Adventures* not only bridges a YouTube series together with popular gaming mechanics found in classic Metroidvania and sidescrolling games, but it ties wackiness and absurdity into one finely tuned package.
