## Woah Dave! Coming to Wii U August 20

Also supports cross-buy.

By Shawn Wilkins. Posted 08/13/2015 13:00 1 Comment

Woah Dave!, a game that is not only challenging, but brain-numbingly difficult and all-around aggravating, is coming to Wii U on August 20, as announced by Choice Provisions.

The game was featured alongside *Guacamelee! Super Turbo Championship Edition*, *Mighty Switch Force!*, *The Fall*, *OlliOlli*, *Moon Chronicles*, *Stealth Inc. 2*, and *SteamWorld Dig* as a part of the Humble Indie Bundle back in May, and finally getting the title on the big screen in HD means anger can be directed toward a larger, more expensive surface. With cross-buy being introduced over the past year or so, developers are using it to make sure those who buy the games they develop on one console will be able to experience it free of charge on the other. In this case, since it was a title offered during a Humble Bundle that saw over \$500,000, tons of gamers who were exposed to the title will be able to nab it for free once it becomes available on August 20 in the Nintendo eShop.
